## COURSE ASSIGNMENTS

**Research Proposal:**

Outline in 1-2 pages the proposed structure of your essay and some potential sources.

**Essay:**

Essays should provide a clear, concise response (argument) to the research question backed by rational consideration of the evidence.

Essays should be approximately 2,500 words in length (excluding bibliography). Summarize your response (argument) in a sentence or two – the thesis statement – in the first paragraph. Be explicit. The reader should be clear on what you are arguing. Assume an educated reader. Do not spend more than a few paragraphs providing background information. Focus on providing information that advances your argument. The balance of the paper will defend your argument but could also acknowledge counterarguments. Seek to demonstrate that your argument is superior. Cite all facts and figures that are not common knowledge. You must cite all ideas that are borrowed from other authors.

## ASSIGNMENT GUIDELINES

**Formatting:**

For both assignments, use 12 pt. Times New Roman font with standard 2.5cm (1”) margins. Include a title page with your name, the date, and a word count.

**Bibliographies, references, footnotes:**

Use a recognized standard format. *Failure to do so will result in a penalty in calculating your grade.* Consult your TA if you have any questions. Cornell University provides useful online guides to the APA and MLA citation styles:
